

Web Portfolio

Here are some snapshots of sites we have built.

Are you looking to have a dynamic space on the web, where you can keep it fresh?

An IGL website with our support can deliver.

Updating your website can be done online from any machine using just your internet browser. If you can send an email you could update a page on this kind of website. If you need dynamic extras, we can deliver:

- flash
- photos
- forums
- video
- sound

-
even 3D graphics/animation

To get a full list of our services go to the services page.

Here are some designs we developed for these sites:

CMS websites have interactive elements that are cutting edge and make managing your website's content easy and fast.
